Members: M. Bugár, P. Bisták, J. Cigánek, P. Drahoš, K. Knežiková, D. Korenčiak, A. Kozáková, E. Kučera, J. Osuský, K. Žáková

SCOPE OF THE CONFERENCE

The conference focuses on presentation of control methods and algorithms, new control systems, information and communication technologies (ICT) and their industrial applications. Its main aim is to provide a general forum for researchers, teachers and users from practice dealing with practical problems of control and ICT. Conference papers may range from highly theoretical works to industrial and engineering applications. Technical program will include invited talks of leading personalities in control engineering and applied informatics.

TOPICS

- Methods and algorithms for modelling and control of continuous-time, discrete-time, discrete-event and hybrid processes
- Advanced control, information and communication systems
- Embedded, distributed and networked control systems
- Applications of advanced control methods, information and communication technologies in industrial processes, mechatronics and service industries.

IMPORTANT DATES

Submission of extended abstracts: January 3, 2014

Acceptance notification: January 10, 2014

Final paper submission: January 17, 2014

REGISTRATION FEE

Registration fee is 380€. The registration fee covers accommodation and board, attendance of technical sessions, conference proceedings, Volume of Abstracts, coffee breaks and social program activities. Registration fee is to be paid by **January 15, 2014**.
