Invitation

The International Conference

NANOVED & NANOTECH & TECHTRANSFER 2010

will be held in Bratislava from May 16 to 19, 2010. The Conference will be devoted mainly (but not solely) to the latest progress in nanoscience, nanotechnology and nanomaterials, to their applications in diverse areas of physics, materials science, electronics, chemistry, biology, medicine, etc, and to their technological transfer.

The ambition of the Conference is to present the scientific and research potential in this field as well as to stimulate the transfer of the achievements of science and research into the commercial sphere, in particular into small and medium enterprises.

Integral part of the Conference is also presentation of the results of young scientists and awarding a prize for the best poster presentation.

The Conference is intended for scientists, researchers including early-stage researchers, PhD and final year students, entrepreneurs and specialists in the commercial sphere.

Further information and registration forms are available at

Scope

- Nanomaterials
- Nanotechnologies
- Applications of nanomaterials and nanotechnologies
- Nanomaterials for medicine
- Bionanotechnologies
- Risks in nanomaterials and nanotechnologies, health and environment protection
- Technology transfer
