

INVITATION TO APPLY

Huawei ‘Seeds for the Future’ program 2020

Are you an undergraduate student looking for a different online experience?
Are you excited by technical problems because you see them as opportunities to grow as a person? Are you fascinated by the rise of Asia and ever wondered how things look like for companies operating in a dynamic global business in China?

If the answer to these questions is “yes”, we want to hear from you.

Huawei – Who are we?

We are one of the world’s most innovative companies and a leading telecoms solutions provider with comprehensive strengths delivering fixed-line, wireless & IP technologies.

We serve three main types of customers globally:

- Telecom operators that provide Internet, broadband, wireless, plus fixed and mobile phone services
- Enterprises, organizations, institutions, governments & public utilities, as well as industries: finance, energy, transportation & manufacturing
- Consumers, who buy our smartphones, smart watches, laptop computers and other devices

Everything we develop and deliver to our customers is secure, trustworthy, and this has been consistent over a track record of 30 years.

We employ 180,000 people in more than 170 countries. More than 3 billion of the world’s population uses Huawei’s products and services to make calls, send text messages, or surf the internet. We are passionate about the importance of science and innovation in delivering the products and services of tomorrow, and take seriously the role we play in fostering a new generation of talent worldwide.

What are we offering?

We are offering undergraduates – studying STEM or related disciplines (e.g. Science, Technology, Engineering, Mathematics and Computing) the opportunity to join an online experience around technology and culture.

During the 5-day program, the students will:

- get a glimpse at Huawei’s history and technological developments including visits and virtual tours of Huawei exhibition halls, campus and stores
- receive some trainings on key technologies including 5G, cloud computing and AI
- hear from Huawei experts who will share their perspectives on a wide range of topics from cybersecurity to digital transformation.
- discover the habits of the highly successful people, learn how to work in a cross-cultural environment, or understand the strategic leadership model

- experience Chinese culture through virtual tours of Chinese scenic spots

Who are we looking for?

To be considered for Huawei's 'Seeds for the Future' program in 2020, students will need to match the following criteria:

- Be studying a STEM or related discipline
- Demonstrate excellent academic acumen
- Have a strong interest in telecoms and technology issues

Please note:

- Only applications received before the closing date will be considered
- It is preferred (but not essential) that initial short-listing of candidates be undertaken by each participating university
- Final interview selection will be undertaken by Huawei whose decision is final
- No correspondence will be entered into once a final selection has been made by Huawei
- This is a non-salaried program and participation in the program does not imply that future employment will be offered by Huawei upon graduation, or any time in the future

How to apply?

Please email your application materials to seeds@huawei.com :

- (1) a resume;
- (2) an unofficial transcript or corresponding documents that proves your GPA;
- (3) a motivation letter between 400-600 words that shows why you want to participate in this program, your relevant part experience, your interests, and what you could potentially contribute to the program.
- (4) (optional) other materials you'd like to share with us (e.g. a short video about you, your articles, etc.)

We will review your application and contact you further for schedule

For more information, please visit the [Seeds for the Future website](https://seedsforthefuture.com).
